RE:DUCE

When you are trying to maintain your current weight, overeating can present problems. Large meals at restaurants or with friends can be hard to resist and discourage your weight goals.

Re:Duce, a nutritional supplement from Vollara, can increase your chance of successful weight management, when combined with a well-balanced diet and regular exercise. Re:Duce ingredients help reduce fat and carbohydrates from being absorbed by the body, before they are easily and harmlessly eliminated by the digestive system without any negative side effects.

INGREDIENT INFORMATION:

The ingredients in Re:Duce help to promote a more stable response to carbohydrate intake. Re:Duce ingredients have been clinically shown to significantly reduce dietary fat uptake after a meal. They have also shown great results in helping to maintain normal blood sugar levels after eating to avoid the extreme low that follow a large meal.

- Carb Management Proprietary Blend and Fat Management Proprietary Blend.
- Contains NeOpuntia®, which has been shown to decrease fat absorption 25 - 33%.
- White kidney bean extract may help reduce the absorption of carbohydrates.

- The natural cinnamon in Re:Duce supports blood sugar within a normal range.
- Green tea extract is a good source of antioxidants.
